

The Product Life Cycle Status is designed to help communicate to RouteSmart Technologies clients the status of available releases and technical support resources available during the life span of a RouteSmart version. This document is also designed to provide advanced notification of planned changes to available support options as versions progress through the life cycle. Read more about this in our Product Life Cycle Policy.

Notes:

- ArcGIS Pro includes Basic and Advanced.

RouteSmart Version	Esri GIS Minimum Version	General Availability	Extended Support	Mature Support	Retired	Release Date
1.7	ArcGIS Pro 3.3.2				X	January 29, 2025
